

Montana Christian College

Est 1974

In keeping with the Student Right to Know Act (SRTK), Montana Christian College publishes retention and graduation rates for all of its academic programs. Retention rates are calculated by observing the students in any given year who are degree seeking. This data point calculates the percentage of first-time traditional undergraduate students who remained a student the following fall semester. Graduation rates are calculated by following a cohort of students who are full-time students for the first time in any college that are degree or certificate seeking. The cohort from each school is tracked over a period of time. Graduates are measured by those in the cohort who have earned their degree in 150% of the normal time to completion (i.e., 6 years for a 4-year program).

Retention

Observation Year	Retention Rate
2021-2022	52%
2020-2021	35%
2019-2020	44%
2018-2019	38%
2017-2018	38%

Graduation/Transfer-Out

Starting Cohort Year	Graduation Rate (150%)	Graduation Rate (200%)	Transfer-Out Rate ¹	Total Cohort Size
----------------------	------------------------	------------------------	--------------------------------	-------------------

¹ Transfer-out rate is based on the total number of students who started in the cohort but transferred out to another program prior to the scheduled completion date.
